THE PROLOGUE TO THE ELEMENTS

The search for a hidden truth, historical events bridging five millennia, and a conspiracy where the puppet-masters will go to any lengths to keep it that way, even if it means war. The Elements is a bold and extremely ambitious project redefining the mystery-thriller genre, in the making. Developed over a decade, yet barely begun, The Elements is a multi-layered, multi-threaded series that works across multiple characters, settings and timelines on a scale to rival epic fantasy. The Elements books will be released 2017-2025, to be adapted into screenplay for television.
